

Write a Song Verse about Orcas!

Quick Background:

Take a listen to this great Wild Salmon Song by Jeffree Domagalski! Warning: it will get stuck in your head for days. But that's a good thing, because we want you to sing it to us, but with your own verse about orcas! As you heard, the song is all about salmon, the primary food source for Southern Resident orcas, and vibrant and healthy salmon populations are important for orca survival.

Activity:

Tap into your creative juices and write an additional verse about orcas that can be added to the Wild Salmon Song. Send us your verse (contact@whales.org), post your lyrics, or even tag us in a video of you singing along ([@whales_org](https://www.instagram.com/whales_org))! For extra bonus points, Jeffree sent us the [lyrics and chord progression](#) to help support you in creating this additional verse.
